More Info

Version 12.15.0
Released on 6/1/2016, 2:23:28 AM
Last updated 10/12/2025, 6:46:36 PM
Publisher VSCode Icons Team
Unique Identifier vscode-icons-team.vscode-icons
[Report a concern](#)

Installation

To install the extension just execute the following command in the Command Palette of Visual Studio Code:

```
ext install vscode-icons
```

Some people have reported that they cannot find the extension when they insert the installation command.

If you find yourself in the same position, try:

```
ext install icons  
# or  
ext install "vscode-icons"
```

Usage

Once installed and after reloading vscode, you will be presented with a message to Activate the icons.

In case this doesn't happen, navigate to:

- Linux & Windows => File > Preferences > Theme > File Icon Theme > VSCode Icons.
- MacOS => Code > Preferences > File Icon Theme > VSCode Icons.

Features

vscode-icons is being shipped with a lot of features, like:

Icons Customization

Choose the icon you prefer for any particular file extension.

[Learn more...](#)

Bring your own icons

You don't see the icon you like...? No worries, we got you covered. This link will show you how you can use your own custom icon!

[Learn more...](#)

Project Auto Detection

Are you using Angular? This feature will detect it and enable the icons for you. It also works with other frameworks.

Documentation

In our [wiki](#) you can find more information about the extension features and more.

Some examples:

- [Extension's History](#)
- [Supported file icons.](#)
- [Supported folder icons.](#)

Globalization

vscode-icons uses [Crowdin](#) to provide translations for vscode supported languages.

We are looking for translators and proofreaders for all vscode supported languages.

If you'd like to contribute, checkout the [translation section](#).

Contributing

If you like to get involved with the source code, checkout the [build section](#).

For those using [Docker](#) checkout the [docker section](#).

On the other hand, if you want to show the world your artistic side, checkout the [contributing section](#).

In any case, please follow our [contribution guidelines](#).

Credits

Kudos to all [contributors](#) that made this extension what it is.

License

The source code is licensed under the [MIT](#) license.

The icons are licensed under the [Creative Commons - ShareAlike \(CC BY-SA\)](#) license.

Branded icons are licensed under their copyright license.

Versioning

vscode-icons follows [Semantic Versioning 2.0.0](#).

Change Log

You can check out all our changes in our [change log](#).

Acknowledgements

We like to express our "Special Thanks" to:

- All users that made us their favorite **Icons** theme. We wouldn't be where we are without you.

Related extensions

- [vscode-icons for GitHub](#) by [@dderevjanik](#) will allow you to see all GitHub's files with vscode-icons icons.
- [vscode-icons-js](#) by [@dderevjanik](#) get file/folder specific icon from vscode-icons icons.

Enjoy!
